

## Float Home

Better Off

[Verse 1]

Like a man who wakes up alone  
Like a dog who gets lost when its leash is burned  
Feel my meaning dodge and escape me  
Repeat my fear 'til I explode

[Chorus]

When I slow down my mind  
Good grip on the light  
I feel my soul float home

[Verse 2]

Run me down 'til I get along  
Keep my mouth shut now, I only say what I know

I might need some time if you'll let me  
Sit in my car 'til I am calm  
Let loose to find some answers  
You might find you're cold and alone  
Cause everyone that's desperate to know  
Is an addict caught in the storm

[Chorus]

When I slow down my mind  
Good grip on the light  
I feel my soul float home
