

Head Down

Better Off

[Verse 1]

I can feel the way the wind is blowing
Like my fingers know
They can point it out
Vision blurs
My body can't escape this
How can I not settle my sound

[Chorus]

Will your eyes see my disguise
I can't help but to show it
When I stick around I always keep my head down

[Verse 2]

Can't run to new places
Light in my head
A cop car sounds
Keeps leaving me shaking

Keep losing my grip on the world when I'm down
Wake up sweating
Remember nothing
Someone holding me up

[Chorus]

Will your eyes see my disguise
I can't help but to show it
When I stick around I always keep my head down
Is my world gonna black out real soon
Will your eyes see my disguise
I can't help but to show it
When I stick around I always keep my head down
