Meth Head

Better Off

I've been walking back steps all alone
Hoping to hide the smell of cigarette smoke in my clothes
You said it's 'cool' that I was trying to breathe in
I suck in smoke. My hesitation will always win
[Chorus]
I've been looking for the back door
Running out
Cause everyone is sick
Everyone is sick of you and me trying to turn our blues to blac
k
We put the devil into everything
I've been bleeding black blood all along
Try to speak, watch me choke
Hold a knife to my throat
Keeping secrets like our fathers taught us to

Pile up lies so I can lie in them with you
[Chorus]
I've been looking for the back door
Running out
Cause everyone is sick
Everyone is sick of you and me trying to turn our blues to blac
k
We put the devil into everything
I took my time
Please unlock that door
I took my time
I'm sorry, please unlock that door now
[Chorus]
I've been looking for the back door
Running out
Cause everyone is sick
Everyone is sick of you and me trying to turn our blues to blac
k
We put the devil into everything
