

## You Were There

### Better Than a Thousand

Had no fears, stumbled around, full of myself  
Afraid of tomorrow, never looked ahead, no one else  
You gave me a push, I know you believed, I know you cared  
And friendship and courage, never looked back and freely shared  
And I always lead to the extreme  
Forgot what it all means  
There was a man who thought that this world spun around him

Couldn't see at all outside that world until you came in  
Showed me a little logic, a middle path-It made sense to me  
Now I'm finally beginning to appreciate all that you've done for me  
I have faith in you  
And you believed in me too  
I have faith in you  
We've always tried to be true
