

Gonna Get Better

Better Than Ezra

It's 4 am you drunk again
Blowin' up my phone
You say I know it's late
But this can't wait
I don't trust myself alone
You getting loaded ever night
It's getting harder to watch you die
It's 4 am and as your best friend
I refuse to let you go

You know it's gonna get better
You know there's gotta be stars behind those clouds
Yea it's gonna get better
Even though it's hard to see it now
I'm on your side
Promise me you'll try
To make it through the night
It's gonna get...it's gonna get better
It's gonna get...it's gonna get... better

We've had each others back
For the last 20 something years
But right now I don't recognize
The stranger standing here
Where is the light in your eyes
Where did the person go that I idolized
It's 4 am, it's your best friend
Come on, let me in

You know it's gonna get better
You know there's gotta be stars behind those clouds
Yea it's gonna get better
Even though it's hard to see it now
I'm on your side
Promise me you'll try
To make it through the night
It's gonna get...it's gonna get better
It's gonna get...it's gonna get... better

Look at the sky
It's getting light
You never have to apologize
If you wanna stay
That's okay
As long as it takes to be alright

Better...
You know it's gonna get better
You know it's gotta get better, better
Even though it's hard to see it now
You know it's gonna get better
You know there's gotta be stars behind those clouds
Yea it's gonna get better
Even though it's hard to see it now
I'm on your side
Promise me you'll try
To make it through the night

It's gonna get...it's gonna get better
It's gonna get...it's gonna get... better
