

# It's Only Natural

Better Than Ezra

Girl, your daddy's knocking on your door  
I hear your footsteps on the floor to me  
Stumbling back to your room

Pain it is a thing I can't explain  
I only feel it when you go away  
I'm waiting for you to return

Don't fight it if it feels good  
(Don't fight it girl)  
You hide it but you never should  
(Don't hide)  
Don't listen to voices in your head  
What are you and me but monkeys in a tree?  
It's only natural  
Na-na-na-na natural

Hey, I know your mother's off at work  
You say your daddy's such a jerk to you  
Why can't they just all fade away

Girl, is that the way it's going to be?  
I'm only happy when you're down on me  
You can be my honeybee

Don't fight it if it feels good  
(Don't fight it girl)  
You hide it but you never should  
(Don't hide it)  
Don't listen to voices in your head  
What are you and me but monkeys in a tree?  
It's only natural  
Na-na-na-na natural

Don't fight it if it feels good  
(Don't fight it girl)  
You hide it but you never should  
(Don't hide)  
Don't listen to voices in your head  
What are you and me but monkeys in a tree?  
It's only natural  
It's only natural  
It's only natural  
Na-na-na-na natural  
(don't fight it girl)  
It's only natural  
(don't hide it)  
Is it the colour of your hair?  
Is it the silly way you stare?  
(don't fight it girl)  
It's only natural  
Na-na-na-na natural
