

Story In A Nutshell

Bettie Serveert

The average guy who lives next door
Has never been in love before
That was your story in a nutshell

Kinda cute and kinda shy
The normal kind of average guy
Nobody seemed to know you that way

And all my life I've lived next door
I never saw your face before
But opposites attract,
And now it seems there's no way back and

Now that I, now that I've found you
There's no way around you
There's no way at all

Now that I, now that I've found you
There's no way around you
There's no way at all

I've lived next door
I've never seen saw your face before
But opposites attract,
And now it seems there's no way back at all
