

Blue Heaven Midnight Crush

Betty Who

Tonight, I'm caught in a feeling
Can't get you off my mind, you're in my body
And I, I can't keep it a secret
Forgive me if I said too much, I'm sorry

But it feels like I've been falling forever
Just hoping, praying we'd be together

Don't you know I got a blue heaven midnight crush?
You know it's bad when it's a blue heaven midnight crush
Yeah, I'm in trouble 'cause a look never hurt this much
I got it bad, and you're my blue heaven midnight crush

I got it bad, and you're my blue heaven midnight crush
I got it bad, and you're my blue heaven midnight crush

My love, tell me what you're thinking
'Cause one way or the other, I can take it
'Cause I, I'm so tired of dreaming
You hold my hand, and I forget to fake it

'Cause it feels like I've been falling forever
'Cause we're more than friends, we're perfect together

Don't you know I got a blue heaven midnight crush?
You know it's bad when it's a blue heaven midnight crush
Yeah, I'm in trouble 'cause a look never hurt this much
I got it bad, and you're my blue heaven midnight crush

I got it bad, and you're my blue heaven midnight crush
I got it bad, and you're my blue heaven midnight crush

You're like a fire on a summer night
Or getting caught in the rain
Or going 80 on the highway
'Cause you're driving me insane

You're like a fire on a summer night
Or getting caught in the rain
Or going 80 on the highway
And I think you feel the same

Don't you know I got a blue heaven midnight crush?
You know it's bad when it's a blue heaven midnight crush
Yeah, I'm in trouble 'cause a look never hurt this much
I got it bad, and you're my blue heaven midnight crush
