

Make You Memories

Betty Who

I'll make you, make you
I'll take you, take you
I'll make you, make you memories

Are you in love? Is it enough?
Does she make you feel like a million bucks?
'Cause if she does, I'm letting you go
Is she the one, or are you numb?
Lookin' for something to turn you on?
'Cause if you are, I wanna know

We both know that we're falling fast
We'll rewrite the past

Let's make some memories, a new reality
I'll get you to believe in you and me
So let's do something wild, I know it's been a while
Let me remind you that we're all alive

Give me a shot, I know you want
Something magnetic, but you forgot
How to give in, how to let go
Grant you a wish, give you a kiss
Know what you want, and it goes like this:
Baby, give in, baby, let go

We both know that we're falling fast
We'll rewrite the past

Let's make some memories, a new reality
I'll get you to believe in you and me
So let's do something wild, I know it's been a while
Let me remind you that we're all alive

I'll make you, make you
I'll take you, take you
I'll make you, make you memories
I'll make you, make you
I'll take you, take you
I'll make you, make you memories

Let's make some memories, a new reality
I'll get you to believe in you and me
So let's do something wild, I know it's been a while
Let me remind you that we're all alive

Let's make some memories, a new reality
I'll get you to believe in you and me
So let's do something wild, I know it's been a while
Let me remind you that we're all alive

I'll make you, make you
I'll take you, take you
I'll make you, make you memories
I'll make you, make you
I'll take you, take you
I'll make you, make you memories

Let's make some memories
