

# Stop Thinking About You

Betty Who

When glass don't break, when time don't fly  
When the snow is falling in July  
When I don't need to breathe to be alive  
That's when I'll stop thinking 'bout you  
When you play with fire and don't get burned  
When I fall in love and don't get hurt  
When I'm not missing everything we were  
That's when I'll stop thinking 'bout you

What do I do? I'm still waiting for you  
I'm just praying, but I don't believe in  
Miracles, like how I felt before  
I had nothing more than a feeling  
What do I do? I'm still waiting for you  
To come crawl into bed like you used to  
That's when I'll stop thinking 'bout you

When the sun burns out and the stars are dead  
When your voice ain't running through my head  
When I fill the void here in my bed  
That's when I'll stop thinking 'bout you (stop thinking 'bout you)

You're everywhere, you're in my blood  
In every stranger, every song I love  
You're in my dreams, you're all I see  
Yeah yeah, ah yeah yeah

What do I do? I'm still waiting for you  
I'm just praying, but I don't believe in  
Miracles, like how I fell before  
I had nothing more than a feeling  
What do I do? I'm still waiting for you  
To come crawl into bed like you used to  
That's when I'll stop thinking 'bout you  
That's when I'll stop thinking 'bout you

You're everywhere, you're in my blood  
In every stranger, every song I love  
You're in my dreams, you're all I see  
Yeah yeah, ah yeah yeah

You're everywhere, you're in my blood  
In every stranger, every song I love  
You're in my dreams, you're all I see  
Yeah yeah, ah yeah yeah

What do I do? I'm still waiting for you  
I'm just praying, but I don't believe in  
Miracles, like how I felt before  
I had nothing more than a feeling  
What do I do? I'm still waiting for you  
To come crawl into bed like you used to  
That's when I'll stop thinking 'bout you  
That's when I'll stop thinking 'bout you
