

# Indivisible

Betty Wright

Whether to go or stay, never occurs to me  
'Cause I've made up my mind, with you is where I wanna be  
Hey baby, from experience I know  
That we're better together than alone on our own

That's something indivisible  
Time will prove we're indivisible  
That's why I say to you, you know  
I'm never gonna give you up  
Oh no, baby (I'm never gonna give you up)  
I wouldn't know what to do with myself, oh...!  
I'm never (I'm never gonna give you up)  
Oh, give you up (I'm never gonna give you up)  
To nobody else, never nobody else

Love can be a promise so hard to keep  
When something new looks better, or so it seems  
And all, all the changes that we have been through  
Both of us searching for where love rings true

That's something indivisible  
Oh, that's what we've found  
We're indivisible, I'll never let you down, I...  
(I'm never gonna give you up) give you up  
(I'm never gonna give you up)  
I wouldn't know what to do with myself  
I will never (I'm never gonna give you up)  
No, no, no... (I'm never gonna give you up)  
No, no, no, no, no, no, no, no  
To nobody else, never nobody else

You know, there will be temptation along the way  
But I'll never, never let it take control, no I won't  
'Cause I'm in it too deep now, and I'll never let you go...

I will never (I'm never gonna give you up)  
Oh, give you up (I'm never gonna give you up)  
Lord have mercy, I'll never give you up  
I said we are indivisible (I'm never gonna give you up)  
Nobody can separate us (I'm never gonna give you up)  
You can get love for love here, yes you can  
Ooh... (I'm never gonna give you up)  
(I'm never gonna give you up)  
Said, from the top of my head to my toe  
Oh, I want you to know  
I will never (I'm never gonna give you up)  
Never give you up (I'm never gonna give you up)  
Till eternity, it's you and me, baby...
