

# Keep Love New

Betty Wright

(Your love, keep it new  
See the world through colored glasses  
Your love, keep it new)

When our love was brand spanking new  
I enjoyed the things that we would do  
And even if we only held hands  
I knew inside it was a true romance

And other people who were passers-by  
Could see the lovin' deep in my eye  
And knew that there was love between us too  
As new and as fresh as morning dew, ooh

Why doesn't love stay new, then we could too  
See the world through rose-colored glasses  
But our love grows old, and it can't turn cold  
And of love's fire, all that's left are ashes

Ooh you better, keep it  
(Your love, keep it new  
See the world through colored glasses  
Your love, keep it new)

Something that I learned at 25  
I learned somehow that love keeps you alive  
So cherish it as if it were your all  
Don't give up because some teardrops fall  
Hang on in there when times get rough  
And it seems your best just ain't enough  
Just remember God will guide you through  
He'll shine his light and blessings upon you

Then our love could stay new and we would too  
See the world through rose-colored glasses  
And our love won't grow old, and it won't turn cold  
It'll get better, better as time passes

If you just, keep it  
(Your love, keep it new  
See the world through colored glasses  
Your love, keep it new)

Keep your lovin' new  
Keep your lovin' new  
Keep your lovin' new  
Oh you better keep your lovin' new

Live each day like it was the first  
Get your pawn down get it on rehearse  
Keep your lovin' new  
Keep your lovin' bright and brand new

Don't let love slip away  
Add some fuel to the fire each day  
Keep your lovin' new  
Keep your lovin' fresh and new

Girls don't forget to comb your hair  
Keep special care of what you wear  
Keep your lovin' new  
Keep your lovin' new

And fellas keep on openin' those doors  
Take care of that woman, she is yours  
Keep your lovin' new  
Bright and brand new  
Bright and brand new

Keep your lovin', keep your lovin', keep your lovin'  
Bright and brand, new, ah  
Keep your lovin', keep your lovin', keep your lovin', keep your lovin'  
Bright and brand new  
That's what you got to do  
To keep your lovin' new

Keep your lovin', keep your lovin', keep your lovin'  
Bright and brand new
