

Makin' It

Betty Wright

Ooh, ooh, ooh, ooh
Ooh-ooh, ooh-ooh
Sometimes you might not feel like you can make it
From Monday to Tuesday
But the important thing is to just keep on
(Makin' it)

Keep your eye on the sparrow
Be careful of the little things
For they do grow
Something as simple
As hello could spark love into your heart
Tomorrow

Just live on and you will discover
Life is hard especially for lovers
We're no different from all of the others
Who've given their hearts
Life has highs and life has lows
That's how it is, that's just how it goes
Where it's gonna lead
Well nobody knows
The pain

Ooh, all that really matters is we're makin' it
We're makin' it
At the end of the road
You can rest your load
Just keep makin' it
Ooh, mmm, mmm, mmm, mmm

What if Prince Charming any circumstance
Had never gotten the nerve to ask Cinderella to dance
(May I have this dance?)
He may never have given
Love a chance if the slipper on your foot
Is time for romance

Just live on and you will discover
Life is hard especially for lovers
But we're no different from all of the others
Who've given their hearts
Life has highs and life has lows
That's how it is, that's just how it goes
Where it's gonna lead
Well nobody knows
The pain

Ooh-ooh-ooh, all that really matters is we're makin' it
We're makin' it
Live on, (Live on)
And you will know, (And you will know)
What you plan now, (What you plan now)
Said it will grow, (Said it will grow)
Keep makin' it

Mmm, mmm, mmm, mmm, mmm

You see, it doesn't pay to worry about
What the Jones's had or what you don't have
Your time will come just hang on in there
You see, the good thing I know about life is
Your day, your particular day
Is set aside for you
Just do all you can do keep makin' it

Just live on and you will discover
Life is hard especially for lovers
We're no different from all of the others
Who've given their hearts
Life has highs and life has lows
That's how it is, that's just how it goes
Where it's gonna lead
Well nobody knows
The pain

Ooh-ooh-woo, woo, woo-ooh
(Makin' it)
(Makin' it)
Ooh-ooh-ooh, ooh-woo
Live on, (Live on)
And you will know, (And you will know)
What you plan now, (What you plan now)
Said it will grow, (Said it will grow)
Just keep makin' it

Hey, hang on in there
You gotta hang on in there
We'll get there with energy to spare
We're makin' it, hey
'Cause we came from nowhere to somewhere
And we can go from here to anywhere
We're makin' it

Justine Bieber no doll baby
Slow down don't let it stop
And just keep on I won't drop you
You know we're makin' it
(Makin' it)
Ooh, ooh
We gotta hang on in there
Hey, we gotta hang on in there
