

Whisper in the Wind

Betty Wright

Is that all our love has been
Just a whisper in the wind

I though he was important to your heart
Thought I was the icing on your cake
I thought it was going according to the plan
Was that mistake?
Now someone is in love and someone is in liking
Someone's holding on with, all their mind
And someone's lefti 'n' go, no kiss goodbye, oh no
And someone is the answer to the question, why

Is that all our love has been
Just a whisper in the wind
Is that all our love has been
Just a whisper in the wind

Don't get about my time, my shoulder was your savior
Remember how we used to smile through thick and thin
I would never tell you
If I was your mind, you were my parts inside
Your lies can tie our hands, we were free, just you and me, free
You meant so much to me baby,
Now look around, the room is empty, the room is empty

Is that all our love has been
Just a whisper in the wind
Is that all our love has been
Just a whisper in the wind

The petals from my love's flower keep falling, falling
And I have ? my heart, stuck of love, I can hear you calling, calling
Say it loud, say ? could ? maybe why it's so ? tell me
And in my vision, there's indecision
It's tormented ?

Is that all our love has been
Just a whisper in the wind
Is that all our love has been
Just a whisper in the wind
Just a whisper in the wind
Just a whisper in the wind

Is that all that has been
Is it all that I was to you, tell me the truth
Tell me the truth, I can take it
? it hurts baby, but I'm strong
And I just gone, yes I moved on
Just tell me now, is that all, was that all, was that all, uh, whoa,
Just a whisper in the wind, your love, your love, wind, yeah.
