

# Complicated

Bettye Lavette

Now I'm kinda special in my own way  
I do the same things every day  
And I'm totally dedicated  
To having my own way, I'm kinda complicated

Many women seem to fill their minds  
With so many men and so little time  
But all that's overrated, my man treats me  
Oh, so kind... Even tho I'm complicated  
We talk together and try to discuss  
What's really the best thing to us  
He's unsophisticated but I love him so damn much  
It's kinda complicated... Aw!

I know just how to please my man  
I can be so than a baby lamb  
I can be sophisticated  
I can just don't give a damn  
I'm kinda complicated...

Now I'm kinda special in my own way  
I do the same things every day  
And I'm totally dedicated  
To having my own way, I'm kinda complicated
