

Any way you like it
Baby, we can fall in place
Any way you lock it
I can tell you needed space

Never got to see you on the way home
You've been falling out of line and you won't say so
How do I get in situations?
Do you know you set me back a couple days, ohh

Any way you like it
Baby, we can fall in place
Any way you lock it
I can tell you needed space
Any way you like it
Baby, we can fall in place
Any way you lock it
I can tell you needed space

Can we call it Californiacation
We can wrap it up and feel it when we're all alone
Never been the kind to celebrate but
Do you know you set me back a couple days, ooh

Any way you like it
Baby, we can fall in place
Any way you lock it
I can tell you needed space
Any way you like it
Baby, we can fall in place
Any way you lock it
I can tell you needed space
