

Bb

BETWEEN FRIENDS

I guess it was a matter of time
And I was thinking that I'd be okay

Remember when we'd talk shit? That was so far away
If you fall in love again well I never wanna hear about it
Hear about it, no, no

Baby, we could always try again
If you wanna ride again we could always try it
If you wanna love again we could always go again
If you wanna try it we could always try it
You got my number

If you were designed to be a piece of my mind, that's okay
When you wanna stay

Remember when we'd talk shit? That was so far away
If you fall in love again well I never wanna hear about it
Hear about it, no, no

Baby, we could always try again
If you wanna ride again we could always try it
If you wanna love again we could always go again
If you wanna try it we could always try it
You got my number

I wouldn't mind if you took me back
To the night you left
Just to see you crying
Don't say you're fine when we'd beat around
In the mud for them
I see you when I close my eyes

Baby, we could always try again
If you wanna ride again we could always try it
If you wanna love again we could always go again
If you wanna try it we could always try it
You got my number
Baby, we could always try again
If you wanna ride again we could always try it
If you wanna love again we could always go again
If you wanna try it we could always try it
You got my number

Baby, we could always try again
If you wanna ride again we could always try it
If you wanna love again we could always go again
If you wanna try it we could always
