BETWEEN FRIENDS

When life gets the best of me
And I can't take it anymore
I go to my favorite place where
My friends can meet me at the door

And all the kids in the corner getting high
They know what to do when we start counting down
1, 2, 3, 4

Hey DJ
What's the drama?
I've been waiting for my song to come
It's all I've ever wanted and that's all I have to say
Hey!

Hey DJ
What's the drama?
I've been waiting for my song to come
It's all I've ever wanted and that's all I have to say
Hey!

And when it's said and done
Who will be there just for me?
Except for my favorite song and
My brand-new DJ family

And maybe you can hope that they would let you in
And we can catch the sky don't you love the bpm?
1, 2, 3, 4
