

# Drive Over Me

## BETWEEN FRIENDS

Come back, quarter to noon  
I can meet you outside  
Count stacks, put my bags on  
Tell my mother goodbye

Now, tell me, tell me  
What to do  
I changed my clothes  
To look just like you  
Tell me, baby, is it fun?  
Stop at the light, tell me to run

Fun, I like you more than life  
So drive right over me  
Run, kissing and you're wasted like  
Take your automobile  
Show me that I can feel fine

Tongue-tied I'm a doe  
A deer stuck in your headlight  
Contacts, stuck your head high  
Now you've got my chest tight (You got my chest tight)

Now, tell me, tell me  
What to do  
I changed my clothes  
To look just like you  
Tell me, baby, is it fun?  
Stop at the light, tell me to run

Fun, I like you more than life  
So drive right over me  
Run, kissing and you're wasted like  
Take your automobile  
Show me that I can feel-

Feel my heart in a box  
You can count on me  
You put the key in your pocket and we count to three  
Say what's yours is mine is a guarantee

I can be the one you wanna hold tonight  
Tell me that you like it when I call you all the time

I feel my heart in a box  
You can count on me  
You put the key in your pocket and we count to three  
Say what's yours is mine is a guarantee

I can be the one you wanna hold tonight  
Tell me that you like it when I call you all the time  
I can be the one you wanna hold tonight  
Tell me that you like it when I call you all the time

(Fiki, Fiki, Fiki)  
I like you more than life  
So drive right over me

I like you more than life  
So drive right over me
