

# i like you

BETWEEN FRIENDS

You can stay part-time  
If we talk about it  
You can waste my life  
We can be part-time  
If you wanna try it  
You can ride my bike

Tell me what you wanna say  
Don't it feel much better babe  
You've been stuck inside my brain  
Holding on for better days  
Tell me what you wanna say  
Don't it feel much better babe  
You've been stuck inside my brain  
Holding on for better days

I tried my best to block you out  
I can't deny I like you now  
I tried my best to block you out  
I can't deny I like you now
