Really Good Cry

BETWEEN FRIENDS

You've been calling late at night, I know, you're upset
But how am I supposed to know what I should expect, yeah
Every time I see you, oh it hurts, you're a mess
And I know deep down that you'll always be a wreck (okay)

If you could try to settle down
I would really like that
If you could try and settle down (yeah)
I would really like that

All I got was a really good cry
And I guess I really needed it so thank you a lot
'Cause my face is so wet but it feels kind of nice
When it's hard to see
All I got was a really good cry
And I'm laying in your bed and I'm just wondering why
And my face is so wet from the tears in my eyes
It's so hard to see

I just wanna try and be your friend when you're ready
We could even start by making plans with your family
Stop at all the stations in your car, get some candy
I know deep down that you'd like to understand me

If you could try to settle down
I would really like that (okay)
If you could try and settle down (yeah)
I would really like that

All I got was a really good cry
And I guess I really needed it so thank you a lot
'Cause my face is all wet but it feels kind of nice
When it's hard to see
All I got was a really good cry
And I'm laying in your bed and I'm just wondering why
And my face is so wet from the tears in my eyes
It's so hard to see
