

Redlight

BETWEEN FRIENDS

Should I just stop by to say
I think about you through my days
Like you could be the one for me at seventeen or forty-eight
I find the pieces that you left over for me to reconnect
I wish you would pick up the phone you say you do, you say you don't

Turn around
I know that I'm gonna see you out
Acting like you could forget about
The love I gave to you
It's yours to have
When you're ready to

You know I got you on my mind like
I think about you all the time right
You know I got you on my mind like
You know you got it, yeah, you know you got it right

I know that you stopped by today
I checked my cam and seen your face
I know you have a lot to say but popping up is not okay
All the pieces that I left, just box them up I'll come collect
I wish that you put down your phone,- you keep calling me when you know I won't

Turn around
I know that I'm gonna see you out
Acting like you could forget about
The love I gave to you
It's yours to have
When you're ready to

You know I got you on my mind like
I think about you all the time right
You know I got you on my mind like
You know you got it, yeah, you know you got it right

You know I got you on my mind like
I think about you all the time right
You know I got you on my mind like
You know you got it, yeah, you know you got it right

Red light, you're with somebody else right?
You didn't even look twice I saw you at a red light (Red light)

You know I got you on my mind like
I think about you all the time right
You know I got you on my mind like
You know you got it, yeah, you know you got it right

You know I got you on my mind like
I think about you all the time right
You know I got you on my mind like
You know you got it, yeah, you know you got it right

Ah, it was amazing, it was amazing
It was a lie

Ah, you can erase it, yeah
You can erase me, if that's what you like
Ah, it was amazing, it was amazing
It was a lie
Ah, you can erase it, yeah
You can erase me, yeah, if that's what you like
Fuck
