BETWEEN FRIENDS

I can remember everything
It lifts me heavenly
I know I loved being around

In moments I try make it stay
I pull up your name
I know some things are just not up to me
I float back down

I fall back down again
I know
Means so much to me so

I float
I miss you

Over
Don't feel better when it's over
Won't feel better when it's over
Don't feel better when it's over
Won't feel better when it's over

I can remember everything (Don't feel better when it's over)
It lifts me, bittersweet I know (Won't feel better when it's over)
I loved being around (Don't feel better when it's over)
In moments I try make it stay (Won't feel better when it's over)
)
I pull up your name
I know some things are just not up to me
I float back down

What's the time?
What's your vibe?
Take a bite
Take a ride
