BETWEEN FRIENDS

Sliding
All you ever do is just slide in
Thought you had changed but you're lying
All you ever do is just climb in
Sliding

Sliding
Don't you wanna wait for me
I've been
Falling far away
I'm sliding
All you ever do is just climb in
Sliding

Know you wanna come and see
Know I've been your everything
How you like em so petite
I can change your mind for free

Make it passed our prime
Gotta treat me like a dime yeah
Say you wanna take time
Baby you can see what you like yeah
I could say I'm fine
Only when we take a ride yeah
What's your vibe

Sliding
All you ever do is just slide in
Thought you had changed but you're lying
All you ever do is just climb in
Sliding

Sliding
Don't you wanna wait for me
I've been
Falling far away
I'm sliding
All you ever do is just climb in
Sliding

Know you wanna come and see
Know I've been your everything
How you like em so petite
I can change your mind for free

Thinking that I wanna stay
You're the one to say
That we'll never fall lightly
I've been in another place
I could be the same
If maybe you'd stay

Sliding
All you ever do is just slide in
Thought you had changed but you're lying
All you ever do is just climb in

Sliding

Sliding

Don't you wanna wait for me

I've been

Falling far away

I'm sliding

All you ever do is just climb in

Sliding

I don't wanna stay inside

I don't wanna call with no reply

And I don't wanna get too high

I don't wanna stay without you by my side
