

Soda

BETWEEN FRIENDS

Wow

You look at me
And the whole world explodes
I'd quit my job
Just to kiss you in the back of the club
You're so amazing
But you already know

Look at me go
Watch me as I float

I know
I know
Summer's always around the corner
And I'm ready for you
And you're sweet all on my teeth
Just like my favorite soda

So tell me now, don't think about anything
Tell me now, ooh, ooh
Tell me now, will you be my everything?
Tell me now, ooh, ooh

At the end of it all, can I take your guard down?
I'll show you all the things that I can't explain

I know, I know
Summer's always around the corner
And I'm ready for you
And you're sweet all on my teeth
Just like my favorite soda

So tell me now, don't think about anything
Tell me now, ooh, ooh
Tell me now, will you be my everything?
Tell me now, ooh, ooh

If you agree, then meet me at 3
You could share a soda with me
If you agree, then meet me at 3
You could share a soda with me
If you agree, then meet me at 3
You could share a soda with me
If you agree, then meet me at 3
You could share a soda with me
