

stay inside remix

BETWEEN FRIENDS

You've got something and it all makes sense
I just think about the times we've spent
When I'm on the floor
You've got your head on my shoulder

You keep saying baby one more day
I could try and say that I won't stay
But I'm on the floor so put your head on my shoulder

I don't wanna stay inside
So you got me one night
Kinda wanna stay inside
But you got me one night
I don't wanna stay inside
So you got me one night (yeah)

You've got something and it all makes sense
I just think about the times we've spent
When I'm on the floor
You've got your head on my shoulder

You keep saying baby one more day
I could try and say that I won't stay
But I'm on the floor so put your head on my shoulder

I don't wanna stay inside
So you got me one night
Kinda wanna stay inside
But you got me one night
Cause I need one dance
Got a Hennessy in my hand
One more time before I go, I go
Higher powers taking over

You've got something and it all makes sense
I just think about the times we've spent
When I'm on the floor
You've got your head on my shoulder

You keep saying baby one more day
I could try and say that I won't stay
But I'm on the floor so put your head on my shoulder
