BETWEEN FRIENDS

Go!

You like to talk when we take a ride
Say it's sweet to you
I like the street lights
And the way the red shines
Right on to you

And I'll just take your time
Take in the street lights
I just take your time then I waste it
I just take your time
Head for the street lights
I just take your time till you're wasted

'Cause I've been spending all my love
I've been spending all my love
You know that I've been spending all my love on you
Stay with it, baby!
