

tall

BETWEEN FRIENDS

I've been down for a minute or two  
Lost my mind but I'm feelin' brand new  
Star struck eyes but you don't have a clue  
Gold teeth shine when I'm looking at you

Growing tall enough to get involved  
But now I'm high and stuck here  
Always told myself that I'd be fine  
If I stayed up in my mind  
Conversations all the time

Growing tall enough to get involved  
But now I'm high and stuck here  
Always told myself that I'd be fine  
If I stayed up in my mind  
Conversations all the time

Did we fall just a little too soon?  
Do you try all alone in your room?  
Check your eyes, make the red turn to blue  
Gold teeth shine when I'm looking at you

Growing tall enough to get involved  
But now I'm high and stuck here  
Always told myself that I'd be fine  
If I stayed up in my mind  
Conversations all the time

Growing tall enough to get involved  
But now I'm high and stuck here  
Always told myself that I'd be fine  
If I stayed up in my mind  
Conversations all the time (Yeah, run it)

Ah, run it, yeah, run it  
Ah, run it, yeah  
Ah, run it, yeah, run it  
Ah, stunnin', yeah, run it

I just lost my mind  
You should see me, I been working overtime  
You don't know my kind  
I don't think we're ever gonna get it right

You should see me up all night  
But you always close your eyes  
And I've been working nine to five

I just lost my mind  
You should see me, I been working overtime  
You don't know my kind  
I don't think we're ever gonna get it right

You should see me up all night (Yeah, yeah)  
But you always close your eyes  
And I've been working nine to five

I don't gotta play, yeah  
Run it back yeah, yeah  
'Cause you know me better  
Run it back yeah, yeah  
But I won't say it
