

try

BETWEEN FRIENDS

Tryna be the one you stay awake for
And you know that if you ask me I would be yours
Tryna be the one you stay awake for
And you know that if you ask me I would be yours

Overseas
Skyline like a peach
Fill my hair with bleach
Take a seat
Lean your head on me
Wannabe
Highlight of your dreams
Nothin' comes between
What you need?
Lean your head on me

Sweet and sour
I'm holding on to you
Has it been hours?
Ooh, must've left my heart up on your counter
I like you just a little
Picking flowers, flowers

Tryna be the one you stay awake for
And you know that if you ask me I would be yours
Tryna be the one you stay awake for
And you know that if you ask me I would be yours
Tryna be the one you stay awake for
And you know that if you ask me I would be yours
Tryna be the one you stay awake for
And you know that if you ask me I would be yours

Summer heat
Tough without a breeze
You know where I'll be
Save a seat
Lean your head on me
Been a couple weeks
You lost track of me
Hoping we'd agree
What a treat
Having you by me

Sweet and sour
I'm holding on to you
Has it been hours?
Ooh, must've left my heart up on your counter
I like you just a little
Picking flowers, flowers

Tryna be the one you stay awake for
And you know that if you ask me I would be yours
Tryna be the one you stay awake for
And you know that if you ask me I would be yours
Tryna be the one you stay awake for
And you know that if you ask me I would be yours
Tryna be the one you stay awake for

And you know that if you ask me I would be yours

(Tryna be the one you stay awake for)

(And you know that if you ask me I would be yours)

(Tryna be the one you stay awake for)

(And you know that if you ask me I would be yours)
