BETWEEN FRIENDS

You've been on my mind
Just a little bit longer than I expected
See you in visions
We're under covers

Usually I can control my mind
Usually I like to spend your time like money

You're taking some time, get to know me
I've been wasting a life, won't you show me
Won't you show me by taking some time, get to know me
I've been wasting a life, won't you show me
Won't you show me
Video games
Video games

Fell on you and you grab me
Took me over
And the video games that I play
At your place come over

Usually I can control my mind
Usually I like to spend your time like money

You're taking some time, get to know me
I've been wasting a life, won't you show me
Won't you show me by taking some time, get to know me
I've been wasting a life, won't you show me
Won't you show me
