

XD

BETWEEN FRIENDS

I could pick you up in a big truck
Let me be the driver
I'll wait forever right outside
Put the heat on like a fire

I feel like I could lose to you
I think I'd let you win like every time
I hate it when you tell the truth
I wish that we could cross the line

Can we make it?
Oh ya, maybe
It's a quarter after 1
Little drunk and I need ya
When you're by yourself
Are you thinking 'bout me?
It's a quarter after 1
Little drunk and I need ya

Tonight
I'm looking on the bright side
Yeah
Tonight
I'm looking on the bright side

Pretending I know everything about you
Do you think that I could try to?
Give me the passcode to your phone
I think we'd have a breakthrough

I feel like I could lose to you
I think I'd let you win like every time
I hate it when you tell the truth
I wish that we could cross the line

Can we make it?
Oh ya, maybe
It's a quarter after 1
Little drunk and I need ya
When you're by yourself
Are you thinking 'bout me?
It's a quarter after 1
Little drunk and I need ya

Can we make it?
Oh ya, maybe
It's a quarter after 1
Little drunk and I need ya
When you're by yourself
Are you thinking 'bout me?
It's a quarter after 1
Little drunk and I need ya

Tonight
I'm looking on the bright side
Yeah
Tonight

I'm looking on the bright side
