## Night Is The Day Turned Inside Out

Slow, and I can't wait As the day turns inside out And night falls on you, darlin' darlin' It falls on me too

And I'm tired, and I can't sleep But I try so I can dream, ya know Forever's a while And tomorrow's still a night away

And it's late And I just want to go home

I fly over the sea, in the planes I see you Hanging on the wing, darlin' darlin' Holdin' on to me

I stare in my room Your breath is sunny and warm, ya know Forever's a while And tomorrow's still cold and gray

And it's late And I just want to go home

Don't say you miss me Cause I know that you miss me Keep blowing the kisses over the phone Don't say you'll leave me Cause I know you won't leave me You know it took years for you to stay

I don't love you to death But I'd die if you left From state to state you know I'd race But nobody knows which exit is yours

There is a place in the red-light district Of your heart that I used to visit It's been pouring I can't help falling anymore
