Sweet Kinda Something

Beulah

He said promise me you'll take it slow
She said dad gotta let me let go
Not the baby girl I used to be, I'm a woman now

How I hate it when you look so sad
Don't you know you really ain't that bad
It's just something that I'm going through
Did I let you down?

A sweet kinda something's got a hold on me
And even if I fight it, it won't let me be
can't you see?

That everybody's gotta fall in love
Live every moment like it's never enough
One day I might say what was I thinking on
But you can't keep telling me no
Everybody's gotta take this blow

He said a heart is like a precious song
Just be careful cos' they break you know
She said try to put some faith in me
I'm a woman now

A sweet kinda something's got a hold on me
And even if I fight it, it won't let me be
can't you see?

That everybody's gotta fall in love
Live every moment like it's never enough
One day I might say what was I thinking on
But you can't keep telling me no
Everybody's gotta take this blow

Cos' A sweet kinda somethin's got a hold on me
And even if I fight it, it won't set me free
Can't you see...

That everybody's gotta fall in love
Live every moment like it's never enough
One day I might say what was I thinking on
But you can't keep telling me no

That everybody's gotta fall in love
Live every moment like it's never enough
One day I might say what was I thinking on
But you can't keep telling me no
Everybody's gotta take this blow
