

## Castle In The Clouds

Beverley Craven

You can waste your time building barriers  
Spend your life trying to break them down again  
Like an island, in a sea that breathes revenge  
When we talk sometimes you're a looking glass  
Every word from the blueprint of your past  
In the distance there's a castle in the clouds  
And our love will make us strong together  
We can be in love forever  
Just the two of us  
When I get lonely, hold me  
We will understand each other  
You will be my friend and lover  
When we're far apart  
You're in my heart I'm in your dreams

So you call a friend up for company  
Drown your tears at a table set for three  
There's a shoulder and a change of scenery  
But when you wake tomorrow you're back again  
And you wonder where it's all going to end  
In the distance there's a castle in the clouds

And our love will make us strong together  
We can be in love forever  
Just the two of us  
When I get lonely, hold me  
We will understand each other  
You will be my friend and lover  
When we're far apart  
You're in my heart I'm in your dreams
