

## If (When You Go)

Beverley Craven

I've been trying to find a way to say how I miss you when you leave  
Cause I need to get it clear, I'll be ok, I just won't breathe  
If I could keep my arms tied and wrapped around you so you'd feel me there  
In the light that shines through your window I'll be everywhere

If you can keep your head when all about you are losing theirs  
If you can trust yourself when they may doubt you, I'll still be here  
I couldn't love you more than in this moment, so you know, take these  
Words with you, when you go

A poem I read and loved as a child I am giving it to you, cause it says  
It's so much better than I could ever do, remember me in quiet times  
You'll feel me there, I'm in the walls and shadows, I'll be everywhere

If you can keep your head when all about you are losing theirs  
If you can trust yourself when they may doubt you, I'll still be here  
I couldn't love you more than in this moment, so you know, take these  
Words with you, when you go

I'm in the walls and shadows, I'll be everywhere  
If you can keep your head when all about you are losing theirs  
I couldn't love you more than in this moment, so you know, take these  
Words with you, when you go
