

# Never Be The Same

Beverley Craven

There was a time  
I'd have done anything to hear you say,  
'We can make it through'  
But too many lonely nights,  
Trying to win the fight,  
I got used to losing you

We can't go back, we can't go on,  
Though I miss the way we were  
That time has gone.  
I don't know how to feel  
Didn't want us to change  
But I know our love can never be the same

You were the one  
We had everything  
Or maybe I fooled myself?  
Guess I should've seen the signs  
When you said you needed time  
To find yourself with someone else...

We can't go back, we can't go on,  
Though I miss the way we were  
That time has gone  
I don't know how to feel  
Didn't want us to change  
But I know our love can never be the same.

Here we are  
Picking up the pieces of broken trust  
Baby, I remember how I missed your touch

We can't go back, we can't go on,  
Though I miss the way we were  
That time has gone  
I don't know how to feel  
Didn't want us to change  
But I know our love can never be the same.
