

## She Doesn't Need Saving

Beverley Craven

It's easier here on the outside  
Telling her what we'd do  
If fate put us in her position  
If we were stood in her shoes

But destiny's already written  
And she has to learn to survive  
So leave her to make those decisions  
And take back control of her life

She doesn't need saving  
She's not given up yet  
All she needs is our faith  
To replace her regret  
And help her forget

So give her some time to grow stronger  
And let her decide what to do  
She's been through so many changes  
And right now she's still confused  
But when she's discovered the answers  
And she doesn't feel so afraid  
She'll have the power of wisdom  
And no one can take that away

She doesn't need saving  
She's not given up yet  
All she needs is our faith  
To replace her regret  
And help her forget  
The past and the pain  
And try to start over again  
'Cos she knows  
Where she wants to go  
So leave her alone  
And trust her to find her own way

She doesn't need saving  
She's not given up yet  
All she needs is our faith  
To replace her regret  
And help her forget
