

# A Christmas Wish, The Theme to The Loss Adjuster

Beverley Knight

My letter's underneath the Christmas tree  
Dear Santa, won't you let him notice me  
I've been a good girl waiting patiently  
But I can't wait no more

I've been hoping he would see the sign  
Let him see that I can be his Valentine  
I'd do anything to make him mine  
He's what I'm waiting for  
Santa please, grant my wish  
There's only one thing on my Christmas list

Can you hear the sound of Sleigh bells ringing  
The sound of laughter and children singing  
Happy ends need new beginnings  
Take my hand and I'll take care of you  
This Christmas we can be together  
Spread some magic that will last forever  
Believe me I will leave you never  
Baby, I'll make all your dreams come true

Santa must have read my Christmas list  
Under the mistletoe just waiting to be kissed  
I can show you all the love you missed  
It's time for me and you  
This Christmas time you'll see  
That all you'll ever need is me

Can you hear the sound of Sleigh bells ringing  
The sound of laughter and children singing  
Happy ends need new beginnings  
Take my hand and I'll take care of you  
This Christmas we can be together  
Spread some magic that will last forever  
Believe me I will leave you never  
Baby, I'll make all your dreams come true

Come over here  
Let me hold you close  
Let's share a kiss under the mistletoe  
I hope you will agree  
To take a chance on me

All that matters now is me and you  
All my Christmas wishes have come true

Can you hear the sound of Sleigh bells ringing (oh baby)  
The sound of laughter and children singing (yeah)  
Happy ends need new beginnings  
Take my hand and I'll take care of you  
This Christmas we can be together (together)  
Spread some magic that will last forever (forever)  
Believe me I will leave you never  
Baby, I'll make all your dreams come true

Can you hear the sound of sleigh bells ringing (sleigh bell ringing)  
The sound of laughter and children singing (children singing)

Happy ends need new beginnings

Take my hand and I'll take care of you
