No One Ever Loves In Vain

Beverley Knight

Every day found us together
But no-one knew of fate's design
Just as we begun to really live our dreams
Life ran out of time

Every moment shared was worth it
Memories only I can claim
Though it hurts so much
It helps me understand
No-one ever loves in vain

What we had showed me the power
Of a very special friend
Our amazing bond we formed while you were here
Well that will never end

Every moment shared was worth it, oh yeah
Memories only I can claim, yeah
Though it hurts so much
It helps me understand
That no-one ever loves in vain

Sometimes I feel like I am so lonely
And that's when I know that everything's changed
Yet through the tears I smile and say
I'm so glad you came

Every moment shared, well it was worth it
Memories only I can claim, only me, yes
And though it hurts so much
You helped me understand
No-one ever loves in vain
