

# The Need Of You

Beverley Knight

What I want, oh  
What I got, hey  
What I need, oh  
Ooh-oh-oh what I want, oh  
What I got, hey  
What I need

I got canvas  
Paint and brushes too  
What I need is the memory to paint a picture of you  
Love at a distance  
My world's torn in two  
And nothing that I got can ever compare  
To the need of you  
To the need of you

I know the journey  
I know the distance and time but what I need is you beside me to make  
this drive sublime  
Lovin' at a distance  
My world's torn in two  
And nothing that I got could ever compare  
To the need of you  
To the need of you  
To the need of you

What I want (ain't no little one time thing)  
What I got (is a bonafide love)  
What I need (is to have you closer to me)  
Cos' all this space and time it don't ease my mind, no  
What I want is for you to remember me  
What I got (is the fear that you won't)  
What I need (is to bring our minds together)  
So we're synchronised when we fantasise

Love at a distance  
Oh baby nothing that I got could ever compare to the need of you, bab  
y  
To the need of you, baby  
I gotta have you baby  
Oh lord, lord, lord  
Oh lord, lord, lord  
I said I need you baby  
Ever day  
And every night oh  
Oh  
I-I-I-I said i need you baby  
I gotta have you closer
