

Someone Who Gets Me

Beverley Mitchell

I'm just a girl misunderstood, but hopin'
I'll find someone who lets me run wide open
Who doesn't try to change me
From who i'm meant to be
Someone who gets me

I'm just a girl who laughs out loud when i'm nervous
Feel like the main attraction in the circus
When the lights go out i'm different
And all I want to see is

Someone who gets me
Someone who lets me be who I am, not who i'm not
And never gonna be
Whose heart will protect me
Someone who gets me

I'm just a girl who cries sometimes for no reason
Been known to wear the wrong clothes for the season
Yeah, i'm a backseat driver
And i'm gonna drive 'em crazy

Someone who gets me
Someone who lets me be who I am, not who I'm not
And never gonna be
Who won't misdirect me
Someone who gets me

My life's not so ordinary
Sometimes sane and sometimes scary
Am I wrong for wanting someone so

Someone who gets me
Someone who lets me be who I am, not who i'm not
And never gonna be
Who won't misdirect me
Whose smile disconnects me
Whose heart will protect me
Someone who gets me
Someone who gets me
