

# Autumn of Humanity

## Beware of Darkness

Nothing is sacred  
Till everyone's sacred  
No one is coming  
To save us this time  
The spirit is dying  
The future is crying  
It's the autumn of humanity  
Autumn of humanity

It's the autumn of humanity  
Freeing what it used to be when our  
Future is in their hands  
It's the autumn of humanity  
Baby don't let go of me when our  
Future is in their hands

Give it back, give it back, give it back  
It's not your world  
Give it back, give it back, give it back  
It's not your world

It's the autumn of humanity  
Baby don't let go of me when our  
Future is in their hands  
It's the autumn of humanity  
Freeing what it used to be when our  
Future is in their hands

Give it back, give it back, give it back  
It's not your world  
Give it back, give it back, give it back  
It's not your world

Nothing is sacred  
Till everyone's sacred  
No one is coming  
To save us this time  
The spirit is dying  
The future is crying  
It's the autumn of humanity  
Autumn of humanity

Keep us blind, keep us poor  
Keep us [?]  
Keep us staring at our phones  
So we don't ever know  
The darkness that is going on below

Keep us sick, keep us [?]  
Keep us numb [?]  
So we fall back asleep  
In this wicked dream  
So we don't ever see  
The evil in between

Or that the light is out  
The light is out

So we don't ever know  
What's going on below  
That the light is out  
The light is out  
So we don't ever see  
Who's pulling at our strings

Nothing is sacred  
Till everyone's sacred  
No one is coming  
To save us this time
