

Be My Exorcist

Beware of Darkness

There's a black hole in my chest that won't go away
And I pray and take pills every night and day
My mother says "When you're gonna kill yourself?"
My doctor says "child, you're in perfect health"

Be my exorcist
Devil, get behind me
Right now
Be my exorcist
Satan get behind me

Even the God who created you
Cannot pull you from your darkest depression
Even the man who created wealth
Cannot save us from our darkest depression

Be my exorcist
Devil get behind me
Right now
Be my exorcist
Satan get behind me
Now listen

I don't think I'm gonna make it through this life
Alive
No I don't think I'm gonna make it through this life
Alive
Unaware, unaware
How dare you

Be my exorcist
Devil get behind me
Right now
Be my exorcist
Satan get behind me
