## Beware of Darkness

She said don't you ever worry about if our lives will ever work out  
I said I every breath I've ever taken I've wished I were somewhere else  
So we looked up into the stars and hoped for a kiss from god  
And fell asleep in each other's arms in our parked car  
Our future was so far

Bernadette  
Our lives didn't run like we thought they would  
But trust in the path  
There's no use looking back  
Bernadette  
Our stars didn't land where we thought they'd fall  
But pay it no mind  
A rose blooms in it's time  
One day we'll have answers  
Oh, Bernadette

I asked didn't you think we'd have more by the time we got to this age  
She said red wine and debt are the only religion to which I pray  
So our thoughts fell like rain on a dry January night  
That could wipe away an entire city just before twilight  
Our future was once bright

Bernadette  
Our lives didn't run like we thought they would  
But trust in the path  
There's no use looking back  
Bernadette  
Our stars didn't land where we thought they'd fall  
But pay it no mind  
A rose blooms in it's time  
One day we'll have answers  
Oh, Bernadette

At night I walk down State all alone with my thoughts  
And what scares me the most is if they led me to here and now  
How can I trust them at all?

Bernadette  
Our lives didn't run like we thought they would  
But trust in the path  
There's no use looking back  
Bernadette  
Our stars didn't land where we thought they'd fall  
But pay it no mind  
A rose blooms in it's time  
One day we'll have answers  
Oh, Bernadette
