

Inner Sky

Beware of Darkness

She makes me feel like a symphony
Playing on some mountain top
She always knows where my path leads
When I doubt it all
And when this world's too much for me
She says I know a place
Where all of your worries will be erased

Inner sky
Inner sky
She tells me that everything will be alright
Inner sky
Inner sky
Take me to the place where I feel fine
And I'm heading home
Back to my inner sky

She always makes me feel worthy
Anytime I drown in blue
Leaves me crying like a child
Cos as a man I never do
When I get lost in who I think I am
She shows me who I've always been
She helps me jump from a great height
I'm not afraid if I ever land

Inner sky
Inner sky
She tells me that everything will be alright
Inner sky
Inner sky
Take me to the place where I feel fine
And I'm heading home
Back to my inner sky

Inner sky
Inner sky
She tells me that everything will be alright
Inner sky
Inner sky
Take me to the place where no one dies
And I'm heading home
Back to my inner sky
