

Naked

BEXAR

Behind the sexy in your eyes
There's a mystery that I can't figure out
But I wanna tonight

'Cause I don't want nothin' between
You and me so let's come clean
All the little things no one else can see
Go on set 'em free, put it all on me 'cause

Baby
I want you naked
Stripped down to basics
Give it to me slow
Go on and tell me
All of your secrets
I wanna know, I wanna know, I wanna know
Just who you are
I want you naked

Tell me 'bout your first kiss
Your hometown and what you miss
I gotta know
All of it

Who's the one that broke your heart
What you keep there in the dark
Give into me
We'll go piece by piece
Come on, let me see
What's underneath 'cause

Baby
I want you naked
Stripped down to basics
Give it to me slow
Go on and tell me
All of your secrets
I wanna know, I wanna know, I wanna know
Just who you are
I want you naked

Every thought
Every dream
Every scar
Everythin' you need

'Cause baby
I want you naked
Stripped down to basics
Give it to me slow
Go on and tell me
All of your secrets
I wanna know, I wanna know, I wanna know
Just who you are
I want you naked
I want you naked
