

One Day

BEXAR

We ain't gonna spend our lives
Like it's just live and die
Watch it all pass us by
Hey-oh, eh-oh, eh
Ride a bike to LA
Paint a wall, change your name
Instead of just saying that we'll do it one day
Why don't we make today day one, babe?
Everything gonna be alright

One day, we're gonna be rich
Yeah, we're gonna figure it out
One day, we're gonna be it
We're gonna have it a-a-a-all
Close your eyes and take my hand
We're gonna wake up in the promised land
One day, why don't we make today day one, babe?

Let me tell you 'bout a man
Spent his life suitcase in hand
Three-piece suit and a two-dollar map
With nowhere to go
But that ain't gonna be us, girl
Spin around this big ol' world
Get your best dress on, dance out the door
Ain't no use in waitin' for

One day, we're gonna be rich
Yeah, we're gonna figure it out
One day, we're gonna be it
We're gonna have it a-a-a-all
Close your eyes and take my hand
We're gonna wake up in the promised land
One day, why don't we make today day one, babe?

Let the sun burn out, let the well run dry
Behind every cloud there's a clear blue sky
Everything gonna be alright

One day, we're gonna be rich
Yeah, we're gonna figure it out
One day, we're gonna be it
We're gonna have it a-a-a-all
Close your eyes and take my hand
We're gonna wake up in the promised land
One day, why don't we make today day one, babe?
