

Bitin The Dust

BEXEY

It's like 3 in the morning
The rain's falling though the window
You know what I'm saying
I just I ain't I ain't gotta try
I'm just here chilling
You know what I'm saying
Just vibing

They come and they go
I'm here to the end of the road
Hey that's forever
Just remember another one bites the dust
They come and they go
I'm here to the end of the road
Hey that's forever
Just remember another one bites the dust
They come and they go
I'm here to the end of the road
Hey that's forever
Just remember another one bites the dust
Bites the dust
Another one bites the dust
They come and they go
I'm here to the end of the road

Never catch me bitin the dust
No you can get left in the smoke
Bring sally up, bring her back down
Then I got bout 60 seconds to go
They wondering how I'm so cold
I took the sword out the stone
Now it's suddenly thunder and lightning
Bringing the tide in
Welcoming home
I say can you hear that
You hear that wait
Vision I will never hear that day
When they say rest in piece
Okay no no way

Won't bite the dust, I'm immortal
Won't ride the bus, I got a portal
Let's relocate
I'm switchin realms everyday

All I know is we're filthy bitch
Filthy rich!
I hope you are doing that deliberately
Whether you are or not...
