

Bloody Hell

BEXEY

I look at pictures of your face when i record my pain
I want you to know
I look at pictures of your face when i record my pain

Oh you make my mind go crazy
Crazier than it already is
I've searched high and low for someone just like you
They dont exist
Oh you make my mind go crazy
Crazier than it already is
I've searched high and low for someone just like you
They dont exist

Oh, It breaks me down
I left blood stains all over the haunted town
Oh, it breaks me down
I tried to take my life in that tortured house

Voices in my head don't wanna talk out loud
This ain't allowed
I wonder if it rains in hell
I'm reigning hell
Life is a game where you play to fail
They see me speaking i'm not feeling well

(I look at pictures of your face when i record my pain)
Oh you make my mind go crazy

Crazier than it already is
Ive searched high and low for someone just like you
They dont exist
You make my mind go crazy
Crazier than it already is
Ive searched high and low for someone just like you
They dont exist

Oh, It breaks me down
I left blood stains all over the haunted town
Oh, it breaks me down
I tried to take my life in that tortured house

Voices in my head dont wanna talk out loud
This ain't allowed
I wonder if it rains in hell
Im reigning hell
Life is a game where you play to fail
They see me speaking I'm not feeling well

If you got a problem then i'll be there just one call away
I know where you work too
Youre watching every move i make
Ive been so many different places
With so many different faces around
But nothing compares to that old familiar face
Oh it breaks me down
