

# Dark Magician

BEXEY

Oh they must of misread the warning sign  
(No they cannot come close)  
The power is off the scale now  
(I don't think that they know)  
Regret fills up the empty soul  
(No they cannot come close)  
The lonely wizard oh they figured  
(I suggest you should go)

Gather the element, summon the dark magician...  
Straight telling em  
Never question my chemistry, rituals all up in the hexagon  
Ha-ha, turn into stardust you can't pass us  
Laughter... barraging lava at your master  
Never compete get beat easily, defeat your team... retreat  
Book of spells... oh well... what can you see? (See?)  
Please... Z-E-H oh to the T. Planet Switchaz/HANDZUM we so clean

You can not compare  
This atmosphere to anything  
That you know. follow the road...  
Don't look below... do you really want to evolve?

I could cut you up beyond repair like a ninja  
Don't mind me I'm just a mind bender  
R to the O to the Z to the Z  
I'm the son of the sea to the sea I will send ya  
Ghost in the house and I might let you enter  
All the way LIVE but I live to be in bed though  
I already got my head straight  
And my head space straightened out if I can't remember

You can not compare this atmosphere  
To anything that you know  
Follow the road, don't look below  
Do you really want to evolve?

Oh they must of misread the warning sign  
(No they cannot come close)  
The power is off the scale now  
(I don't think that they know)  
Regret fills up the empty soul  
(No they cannot come close)  
The lonely wizard oh they figured  
(I suggest you should go)
